

Arms Reduction Plan Approved in Principle

Warth, Roosevelt in New Cabinet Shuffle

NEW YORK, (AP)—The powerful United Nations political and security committee Friday approved the general principle of a world-wide arms reduction program but rejected proposals for an immediate international treaty.

The committee had agreed unanimously on a resolution for setting up arms reduction machinery, it decided to toss the treaty question into the hands of the security council along with the arms limitation program for detailed consideration.

Russia had initiated the troop census debate by proposing that all countries report immediately on the number of troops they had in alien enemy countries. The question later was broadened to include forces in enemy countries and, finally, domestic troops as well.

It became so complicated by amendments, including a British proposal for a verification and inspection agency, that the committee was hopelessly deadlocked.

The final action was on a compromise resolution put by assembly President Paul-Henri Spaak, of Belgium, who proposed that the assembly call on the security council to determine as soon as possible what information member states may be invited to give.

In contrast with the unanimity in the broader arms limitation program, the committee found itself in a long protracted wrangle which ended in the adoption of the Spaak resolution.

The political committee thus completed its work for the present assembly session.

Both the arms reduction plan and the troop census resolution now go to the assembly. The arms reduction resolution was adopted by a simple majority, while the troop census resolution was adopted by a two-thirds majority.

The committee was divided 10-9 on the arms reduction resolution, and 10-9 on the troop census resolution.

The committee was divided 10-9 on the arms reduction resolution, and 10-9 on the troop census resolution.

OTTAWA, (CP)—Prime Minister King Thursday announced another three-day shift in the federal cabinet—the second within three days—and indicated further transfers may be in the offing.

Meeting reporters after a long cabinet session, Mr. King disclosed these changes:

1. Health Minister Brooke Claxton, who led the Canadian delegation to the Paris peace conference, because of defence minister, succeeding Hon. D. O. Abbott, appointed two days ago as finance minister.

2. State Secretary Paul Martin, now representing Canada at the United Nations assembly in New York, succeeds Mr. Claxton as health minister.

3. Air Minister Gibson succeeds Mr. Martin as state secretary.

Mr. King said Mr. Claxton's appointment as defence minister means that the three defence departments—army, navy and air—now have been returned to their pre-war status under one minister. They were placed under three separate ministers during the war.

Thursday night's changes follow the announcement by Mr. King Thursday when Justice Minister St. Laurent became full-time external affairs minister. Finance Minister Brooke Claxton became justice minister and Mr. Abbott succeeded Mr. Claxton as the finance portfolio.

Mr. King said the current reorganization of the cabinet was something that he wanted to put "by blazes."

Indicating the possibility of further changes, Mr. King said a minister may take a post today in a period of re-adjustment. He may be asked to take another post later on.

No minister will feel that he has any prerogative to stay in his present post. He may be asked to make a change later on.

The prime minister himself seemed to be the place where they could expect to find a minister. Special deputies will go to work in London in mid-January to give Mr. King a report on the government's views on the German situation.

Army Command in Edmonton Will Take Over M. D. No. 13

Already headquarters of an army command embracing two-thirds of Canada's area, Edmonton Friday took over an even greater importance as a military center with an announcement from Ottawa Thursday night that Military District 13 in Calgary would be abolished and its functions absorbed by Edmonton Command headquarters.

Retiring Defence Minister Abbott, in Ottawa, announced that five military districts would be abolished and the other six will be reorganized into three commands. The five regions commands established earlier this year. A move designed for both economy and efficiency, the announcement brought about the second phase of the organization of Canada's peacetime army.

Already Canada's most important army command, strategically, Major General F. W. Worthington, Edmonton command is assured of a place only second in importance to the headquarters at Ottawa, administratively, though the policy.

Will Close Office. The Calgary military district headquarters will be closed on December 31, 1947, according to reports from the headquarters at Calgary, to be 100 will be transferred.

Find 23 Bodies Beneath Debris

NEW YORK, (AP)—The 22nd and 23rd victims of a collapsed tenement house in New York City were found today in a bathtub and a six-month-old baby was removed from the wreckage Friday as rescue workers abandoned hope for the lives of 13 others.

At least 30 were killed in the crash, which occurred in the early morning hours of Friday.

Rescue workers pulled down the rear section of the splitting roof and within an hour had begun removing bricks by hand, attempting to clear a path to the trapped victims.

Stalin to Return to Moscow Soon

MOSCOW, (AP)—Prime Minister Stalin will return to Moscow shortly from his vacation, an informed source said Thursday. The informant said that the premier was considerably rested and in good health. He will be 67 Dec. 21.

The informant related that there has been no reports that Stalin has been ill.

Stalin's absence from the capital has been explained by reports that he was recovering from a cold.

Farm Federation Elects R. Marler

CALGARY.—Roy C. Marler, of Bremner, was elected chairman of the Alberta Federation of Agriculture Thursday when the board of directors held a meeting following the conclusion of the two-day convention here.

Mr. Marler, who succeeds Lee Hutchinson, of Duhamel, chairman since the federation's inception in 1940, formerly was dairy section officer of the group. He also is a director of the Alberta Milk and Dairy Cream Producers' association, director of the Northern Alberta Dairy Pool, a director of the Edmonton Exhibition association, and a director of the Alberta Provincial Cattle and Swine Breeders' association.

Former chairman of the agricultural section of the Edmonton Chamber of Commerce, Mr. Marler was elected to the position of chairman of the Alberta Federation of Agriculture, which is a non-profit organization.

Field Crops Value Highest Since '44

OTTAWA, (CP)—Gross value of principal field crops produced in Canada for 1946 is estimated at \$1,132,264,000, compared with \$1,132,264,000 in 1945, the dominion bureau of statistics reported Thursday.

The 1946 wheat crop was valued at \$417,487,000, a \$125,448,000 increase over the 1945 crop of \$292,039,000.

Farm Federation Elects R. Marler

(Continued from Page 1)

Federation during the convention. Heirichson by the two other farm bodies will be brought before members at convention to be held in January.

George E. Church of Balise, president of the U.F.A., was continued as vice-chairman, and A. T. Baker, of Edmonton, grand director on the board, was elected second vice-chairman. Mr. Marler, Mr. Church and Mr. Baker will constitute the executive. James H. McNeil remains as secretary.

The "farmers' right to strike" was approved by the convention when a resolution proposed by an A.P.U. delegate, A. D. Olson, of Hometown, was passed. The resolution carried, 10-1, and provided that if the action is not taken without full consultation with the federalist's associates in the Canadian Federation of Agriculture and "until every reasonable effort has been made by democratic forms of representation to achieve desired results."

Say Tax Unfair
In another resolution passed, the convention urged immediate removal of the social service tax, which was described as "discriminative and inequitable taxation."
The convention also urged implementation of an equal "non-rate" across the domain in freight rates. Taxation of co-operatives was "renewed" in another resolution aimed at Ottawa, and it also urged the Dominion government bureau

of statistics to use a period that reflected more equitable relationship of farm prices—such as between 1928 and 1929—as a basis for comparison.
Production of export bacon for Britain can only be stimulated by a boost of 48 per cent. in the selling price and another reduction, and it was urged a freight bonus be paid on all export pork products to equalize the freight bonus allowed to eastern producers on food grain supplies the west asked for.

The convention also asked for the establishment of a full experimental farm on the gray, wooded soils of Alberta this year, as there is insufficient technical information available to those settling on this type of land.
On J. Stimpfle, president of the A.P.U., attacked recent federal legislation, calling it "discriminative and inequitable." The government wouldn't dare pass legislation abolishing co-operatives, instead they tried to destroy them gradually and this is only the first step.

Hon. A. J. Hooke, provincial secretary, said that the government had taken the property of the war years and established means to pay off their private debts accumulated during lean periods, the public debt had increased by leaps and bounds.
He estimated that every man, woman and child in Alberta carried \$100 in debt. The government's share of private, municipal, provincial and national debt.

Ottawa to Honor Chipman Pioneer

(Continued from Page 1)

alization of a dream that took thousands of Europeans to the Canadian west.
Born in the village of Neok in western Ukraine, Kieniak recalls how he and his fellow villagers always suffered from annual food shortages. He recalls how a German family in a nearby settlement aroused his interest in Canada.

On his arrival at Halifax in 1901 he refused employment, seeking instead land that he was informed was being given away "free" in Canada. Although the reaction and this statement, he says, was not very encouraging he decided to go west and first settled at Winnipeg.

For two years he worked in Gretna, Man., earning \$10 a year and his board. He later returned to the Ukraine and brought out his wife and three children.
For four years on his return he continued to work at Gretna earning \$50 a year in cash and 40 bushels of wheat and 40 bushels of barley.

After a fourth child was born, Kieniak chartered a freight car for \$40 and loaded it with two cows, two pigs, 20 chickens, a wagon, a plow, 12 sacks of flour, wheat, beans and his family and set out for Chipman where a brother, William, already had settled.

That was his start, since then he has made a comfortable living as a half-century of labor, his family branching out into many other fields of Canadian life.

Of his 14 grandchildren five serve in the armed forces.

Edmonton Journal—Edmonton, Alberta, Dec. 13, 1948—Edmonton Bulletin

ed overseas and one was wounded in action. Two granddaughters are well-established veterinarians, the daughter, Joseph J. and Peter, of Edmonton. These two are business and another is a noted breeder of purebred cattle.

35 Years in Canada
During his 35 years in Canada Kieniak has witnessed the Ukrainian population grow in this country from two individuals, including himself, in 1913 to approximately 25,000 today.

On Aug. 1, 1941, Kieniak was an honored guest at the 80th anniversary of Ukrainian immigration to Canada at a ceremony in Mundare. About 3,000 Ukrainians attended during the high mass conducted by Bishop Basil Ledyard in the parish of Mundare.

Kieniak later was decorated at a ceremony at Chipman by Rev. Father Lenta with a golden cross on which was inscribed the date of his arrival in Canada.

Army Command To Be Enlarged

Highway System and N.W.T. and Yukon Signals System

Calgary Long Army Base

Calgary has been an army base headquarters since the conclusion of the First Great War, and it has been an army base since the 1880's. It will remain an army station, as the Lord Strathcona Light Horse (H.A.) and the Princess Patricia's Canadian Light Infantry Regiments will remain at their stations there. Current barracks will be replaced by an active army station, according to Western Command authorities.

In personnel moved from Calgary to Edmonton, all branches of administration departments will be represented.

The functions of eliminated military districts will be absorbed by the five regional commands. Those remaining will be completely under the authority of the commands for the first time.

The commands and their chiefs are: Western, under Maj.-Gen. Worthington; Prairie, under Brig. M. H. S. Penhale; Central, under Maj.-Gen. C. E. Renaud; Eastern, under Maj. Gen. H. W. Foster. Their respective headquarters are at Edmonton, Winnipeg, Oakville, Ont., St. John's, Que., and Halifax.

London has a drive against false smoke detecting its new building.

Churchill Warns Of War in India

LONDON, (CP)—Winston Churchill told the commons Thursday that he expected civil war in India which may cause an "awful achievement" of the population, and accused the Labor government of direct support.

"All the facts and all the omen point to a revival in an acute and violent form of the internal hatreds and quarrels which have long laid India in a state of civil war," Churchill said in a debate on liberal-minded British control of India.

London has a drive against false smoke detecting its new building.

IT'S HERE!!

The Greatest Suds Discovery

in 2000 Years!

PROCTER & GAMBLE'S dreft BRINGS YOU

FASTER, BRIGHTER, SAFER CLEANING

EVEN IN THE HARDEST WATER!

Dishes Shine Without Wiping!

No soap in the world performs the miracles Dreft performs in your dishpan. It makes dishes shine—even without wiping!

No streaks! Dreft's amazing suds rinse clean and clear—leave no greasy streaks or cloudiness the way all soaps do. Even glasses sparkle without touching a towel to them. And Dreft is kind to hands.

New WOOLENS

Wash Softer, Fluffier Than With Any Soap!

When washed in Dreft and your precious new woollens are a joy to look at—a delight to feel! No soap depositions to clog woolens and dim their color. No harsh new soaps and baby things wash softer and fluffier than ever before. Yes, softer and fluffier than with even the most expensive soap flakes!

STOCKINGS

Wear Longer! Look Lovelier Than Ever Before!

You'll be delighted at Dreft's gentleness to stockings! Dreft's suds leave no soap film so heavy-hose and cloud their beauty. Colors stay fresh far longer than with any soap! What's more—nightly Dreft's softening, prolongs stocking life—gives noticeably longer wear!

LINGERIE Stays Brighter and Fresher!

No Soap-Fading! It's the greatest suds discovery in 2000 years! You'll agree when you see how your lovely lingerie stays color-bright and fresh far longer when washed with Dreft. There's no film to cause soap-fading. Dreft's rich suds keep your pretty slips, blouses, "busties" brighter and fresher than any soap could ever do.

Gives You 5 Times More Suds than any Soap in Hardest Water!

No Soap-Fading! No soap on washcloths. No greasy woolens—knowing that with Dreft there's no cloudy film to cause soap-fading!

Dishes Shine—Even Without Wiping! With Dreft no dish towel is needed for wiping up polishing. Dishes and glasses fairly sparkle.

Instant Suds—More Suds! In cold water, in hardest water—Dreft's suds billow up instantly. And Dreft's suds last so long.

Procter & Gamble's patented suds discovery dreft

Coconuts Pile Up in Pacific Though World Short of Oil

WASHINGTON, (NANA)—Coconuts, now tremendously valuable for the oil they contain, are piling up on Pacific islands as food experts predict a continuing world deficit of fats and oils for at least another year.

If any blame is to be placed for the coconut oil shortage, it probably should rest on the Japanese. They occupied and, in some cases, laid waste a large portion of the copra-producing areas. This included the Dutch East Indies, which normally furnished about a quarter of the world's supply of copra (dried coconut meat from which oil is processed).

An agriculture department official says the copra shortage is an outgrowth of three factors: They are:

1. Coconut plantations were allowed to run down during the war, in some instances were completely abandoned and now face shortages of such things as fertilizers.

2. Many important copra drying equipment, either worn out or destroyed during the war, is hard to replace in the face of world demands for other industrial equipment.

Need Small Ships
3. Small ships essential to the collection of coconuts and copra for the smaller out-of-the-way Pacific islands are scarce. Many have been sunk or damaged.

Then, too, the copra producer, faced with competition from the large increase in American oil crops during the war, are tending to market closer at hand—Australia and New Zealand, for instance.

The war also delayed planting of new stands of coconuts, which require from seven to 11 years for full growth.

Imports of copra from the Philippines, which were negligible last year, will be fairly substantial during 1964, according to the department. But this increase will be partly offset by curtailment of imports of South Sea copra, Ceylon coconut oil and copra and West African palm kernels, a recent report of the agency points out.

Mills Damaged
The Philippines took a drubbing from the Japs, and copra crushing there are slow to get back into operation. Before the war, the island was an important source of coconut oil for this country, as well as for copra which was processed in the United States. Crushers here, however, do not know when they will be able to get an adequate supply from the Philippines.

Since May of last year, the Philippines copra industry has been operated by the Copra Export Management Co., a government agency. The department has announced however, that since the industry has made progress toward rehabilitation, the company will end its operations June 30.

For Relief Purposes
Much of the coconut oil is destined to move from the Pacific islands and other areas is going for relief purposes. Famine-threatened countries face a marked shortage, not only of grain but fats and oils.

Three Vessels Sail To End Lake Season

FORT WILLIAM, (CP)—A few lonely freighters steamed across the Great Lakes Friday for their winter voyage as navigation for the season neared its end. Insurance rates expired at midnight Thursday, but a skeleton fleet still is playing the Great Lakes sea.

Three vessels, the Second, Count Benoit and Superior, cleared from Port Arthur and Fort William Thursday night to qualify for insurance.

Although the shipping season just concluded was marked by the biggest adverse strike in the history of inland shipping, 230,000,000 bushels of grain was moved from lakehead ports.

Blum Holds Talks, Plans New Cabinet
PARIS, (AP)—Ailing Leon Blum, 74-year-old compromise candidate chosen as France's interim president, planned a new series of consultations Friday in an effort to form a cabinet and lift France, temporarily at least, out of its year-long political ferment.

Blum is not expected to have a cabinet ready for approval of the national assembly before next week. His cabinet will remain in office only until mid-January, when the president of the republic is elected. The latter then will nominate a premier.

The British health minister has been asked to give priority to materials for building bathrooms in coal mining settlements in South Wales.

Adventurer's Chief Vanishes in England

LOWESTOFT, (CP)—A British expedition leader, Capt. Claude K. Sprague, British-born adventurer, disappeared Thursday.

Commandos, fighter pilots, adventurers and explorers were among Capt. Sprague's hand-picked crew, each of whom paid \$2,000 to help defray expenses.

Claim Bill Plans Curb Professions

PRINCE ALBERT, (CP)—John G. Diefenbaker, Progressive Conservative M.P. for Lake Centre, said Thursday that Saskatchewan's C.P. government is preparing a bill designed to regiment the professions of Saskatchewan under the pretense of control.

In a statement distributed to Saskatchewan newspapers, and also prepared for broadcast, Mr. Diefenbaker said "this draft bill makes the professions subject to administrative lawlessness. It is conceived in a spirit of oppression and can be used for any purpose—the coercion of the professional men and women of this province to the whims of the provincial government."

At Regina, however, Premier Douglas, who referred to the "bill" as a report being prepared by a special committee of the legislature, said he did not know its contents.

"If the newspapers know... they know more than I do, and that goes for Mr. Diefenbaker too," Mr. Douglas said.

Mr. Douglas said that the committee would present the report for the legislature's consideration and "the government cannot make any decision... without the legislature's previous study."

While it has been rumored in political circles that such a bill was being drafted and would be presented to the next session of the legislature, its existence has never been confirmed officially.

Mr. Diefenbaker, who said he was speaking not as a lawyer but as a Canadian "alarmed at the trends being revealed in Saskatchewan," said that if the proposed "control" law "it will result in every professional man and woman in this province being under government direction and subject to scrutiny if he sets contrary to the will of the government in any way."

"It is implication it permits the government to carry out government policy, for it will be easy for the cabinet, to define any conduct 'worthy of punishment as the failure to carry out government plan."

Steel Lack Hits Britain's Exports

LONDON, (CP)—A prospective gap of 2,000,000 tons between 1947 demand and availability of steel threatens to curtail British exports and delay the long-awaited speed-up in home production.

Labor disputes in Canada and the United States have cut steel imports far below expectations.

Already steel exports have been brought down to rock bottom. Herbert Morrison, and president of the council, told the commons. The general rule is that no steel is sent abroad unless failure to export will injure the wider interests of the United Kingdom economy.

Supply Minister John Wilson forecast a 500,000-ton shortage during the first quarter of 1947 and automobile manufacturers have expressed fear their output must be cut.

"The cabinet must be seriously wondering whether the present output (of steel) is enough to maintain the policy of full employment," wrote the industrial correspondent of the Sunday Times.

The Board of Trade Journal, weekly government publication, listed steel among materials which "are already, or are becoming, insufficient to keep fully employed the labor available to use them."

Below the steel imports were some 1,000,000 tons a year and the government expected to get more than that during 1946. Mr. Morrison, however, estimated imports at only 500,000 tons.

Say Native Boy Brutally Murdered

KINGSTON, Jamaica (CP)—The story of a brutal slaying was unfolded Thursday by police who arrested 16-year-old Theophilus Yates and charged him with the murder of a 16-year-old native boy.

Police said the boy, Wilson Thomas, was tied with a length of rope to a young, unbroken male by Yates, his guardian. The male was driven away, dragging the struggling, screaming boy down jagged, rocky mountain tracks.

When the male stopped ten miles away the boy's body was a broken mass of flesh and bone.

Calgary Increases Hospital Rates
CALGARY, (CP)—Increased ward rates, operating room fees and X-ray fees at the Calgary general hospital were ratified by the hospital board Thursday.

Rates in general and semi-private wards will be raised 50 cents per day for resident patients and 25 cents per day for non-residents. Private ward rates for both residents and non-residents will be increased 50 cents per day. Increasing the rates is expected to decrease the hospital deficit by \$36,000.

Towers May Head International Bank

NEW YORK, (CP) - The Herald Tribune says in a Washington dispatch that Graham Towers, governor of the Bank of Canada, is a "leading candidate" for the presidency of the International Bank.

The dispatch adds that Towers, reached by telephone in Ottawa, declined comment. It added the 49-year-old Canadian was backed for the post by highly-placed United States authorities.

GOODBYE DANDRUFF

You'll be delighted with the rich, creamy lather of Fitch's Dandruff Remover Shampoo... it's the only shampoo made whose guarantee to completely remove dandruff is backed by one of the world's largest insurance firms.

FITCH SHAMPOO IS DIFFERENT—RESULTS ARE DIFFERENT

Even the method of application is different... Fitch Shampoo is applied directly to the DRY hair and scalp. The antiseptic qualities of Fitch penetrate and cleanse the thousands of tiny hair openings. Then when even the hardest water is added, Fitch Shampoo forms an abundant, creamy lather that dissolves dandruff and carries away all dirt and perspiration. No acid after-rinse is needed. Fitch Shampoo leaves all colors and textures of hair soft, lustrous, and healthy. It is recommended as it cleanses. Fitch Shampoo is the largest selling shampoo in Canada and the United States. It's economical too! Use Fitch Shampoo regularly each week.

After and between Fitch Shampoo you can keep your hair shining and manageable by using a few drops of Fitch's Ideal Hair Tonic every day.

Acquittals to Stir Criticism On Espionage Case Methods

OTTAWA, (CP)—The series of acquittals in the Canadian espionage trials is expected to be the basis for a sharp debate in the next session of parliament, with R. Hen, J. L. Hunt absorbing the brunt of the attack in his new role as minister of justice.

Despite rumors, there is no indication the government intends any action because five of the 13 persons tried so far have been acquitted.

One of Mr. Hen's first pieces of correspondence as justice minister, it was learned, was a letter from A. W. Bennett of Ottawa, the lawyer who won acquittals for three of the five, asking that if any further copies of the report of the royal commission on espionage are published mention be made of the fact that certain people branded as guilty have been exonerated in the courts.

No Second Printing

One high official, however, said there was no indication a second printing of the report was planned. Of the 600 copies of the 72-page blue book so far published, only 450 have been issued.

Shareholder John Diefenbaker, (Prog. Con., Lake Centre, Sask.), has promised a campaign for a bill of rights—legislation he sought to launch at the last session only to see it founder on government committee that any rights he sought were already law.

Then, however, he was armed largely only with the weapon of principle. He argued it was wrong to banish habeas corpus to hold men and women uncommunicated without legal counsel for weeks and to brand them guilty before they went on trial.

Measures Defended

The government's contention has been the gravity of the situation warranted the extreme measures that were taken. It is a fact that in none of the trials has it been possible for the defence to maintain successfully that no Russian conspiracy did exist in Canada. It is only when complicity in that conspiracy has been established to individuals that trouble has been encountered.

So far, the government has stood its ground. The commission's status and its report.

In the meantime, two of the five persons acquitted still face other charges. But it was learned from Bennett that he has recommended to the government that they be dropped.

But nothing is certain. George Adams and Miss Maitland Nightingale are mentioned in the clear as Dr. David Shorah, Aestha Chapman and William M. Foplin.

May Ask Increase In Unemployed Pay

OTTAWA, (CP)—Boosting of unemployment benefits will be sought at the next session of parliament, it is expected here, but no measure exists and that the scheme will be broadened to take into account lumber workers.

Though no moves in this direction are apparent as yet, it is considered probable the unemployment insurance advisory committee will recommend to the government later payments to jobless from the rapidly-growing fund of around \$350,000,000, while the scope of the scheme as it affects lumbermen may be extended under existing legislation.

Benefit payments now range up to \$12.50 a week for single workers and \$14.50 for those with dependents. Last spring, the committee asked for \$14.25 and \$16.50, the bulk of the increases going to men with dependents. This was turned down.

For the lumber workers, the plan is effective now only in British Columbia. Parliament at its last session authorized the unemployment insurance commission to apply the measure generally to lumbermen at its discretion, but it was not until the British Columbia legislature passed a bill in June because of the greater stability of the lumber industry in that province.

300,000 Germans Work in Britain

LONDON, (CP)—German prisoners, members of a countless band of more than 300,000, work in London docks, on lonely farms and in forests.

Probably two years will pass before all are returned home for the British government and the prospect of immediately speeding up the program under which they are leaving the country at the rate of 1,000 monthly. Many of those now returning to their battered homelands have been in uniform more than seven years.

They look healthy, come with a sunken face, and many of them are the sons of British people when they arrived from Canada and the United States last year.

These former prisoners, they have been invaluable assistants in gathering and training British troops; others say they are ill-natured and violent.

Many of the younger workers, who during the war were exposed to Nazi regime and were denounced as traitors, have been given information about democratic methods, show interest in the classes where they learn English and history.

Will Ask Recount Lethbridge Vote

LETHBRIDGE, (CP)—Returning officer Thomas L. Ferguson, pro- a tie between two opposing candidates for the fourth contested federal seat in the province, announced today that he would ask for a recount.

Mr. Ferguson, president of the C.L.O. announced a recount would be demanded.

Britain to Probe Spread in Prices

LONDON, (CP)—A high government source said a drive to bring down the cost of distribution is among early items in the Labor government program. The government hopes to reduce food costs, although prices to farmers and other primary producers are considered fair.

"It has never been quite clear why a letter which brings the farmer together should cost the city newspaper a dollar and a half as much," the spokesman said.

"Now a full-scale inquiry into distribution will be made, inquiry through the food ministry."

Presto, Change From Airplane to Car in Seven Minutes

Robert E. Fulton, Jr., president of Continental Inc., and chief designer of the new "roadable plane," the Alphonis, is shown here in the process of converting it from a plane into a car. It takes one person seven minutes to make the conversion. The car has a speed of 45 miles an hour, as a plane a speed of 115 miles an hour. The car has a convertible top.

N. S. Plants Idle, Many Unemployed

NEW GLASGOW, N.S. (CP)—Every Canadian community has its boomers, but with unemployment at the highest rate in Canada, the boomers in this Pictou county industrial area are working overtime to attract new industries and orders for the old ones.

Labor department figures for September showed that for every 1,000 men employed in this area, birthplace of Canada's iron and steel industry, 392 were jobless. The average for the Dominion was 50.

With 2,400 unemployed registered in five towns, the campaign of a young board of trade to coax new industries to come here and help take up the labor slack is gaining momentum.

New Plants Help

Already a cement plant and two textile mills have opened since the war ended, but the plant only a year and a coal mill is being developed for production next year. But the three plants already established have added only 700 new jobs in an area where industrial employment has dropped from a wartime peak of 8,000 to 3,000. The coal mine and brick plant will add only 200 more jobs.

To the 30,000 people of New Glasgow and nearby Trenton, Stellarton and Westville, the best possible Christmas gift would be orders to keep the heavy industries along the East river belching smoke.

May Ask Increase In Unemployed Pay

Civilians to Run Atomic Research

WASHINGTON, (AP)—The United States atomic bomb and energy business—a \$1,400,000,000 concern with 43,000 workers—will pass into the hands of the civilian-controlled Atomic Energy commission at the start of the new year.

The commission, still little more than a body of five members and some help borrowed from other federal agencies, disclosed Wednesday it would take over the army's Manhattan district, "essentially intact," including its organization, properties and personnel about Jan. 1.

Until the commission is in full operation (probably months away) the Manhattan district will continue to help scientific and research work for the commission nuclear fission development and manufacture of atomic bomb material.

RECORD CROWDS JAM CHICAGO'S INTERNATIONAL LIVE STOCK SHOW

SECRETARY BYRNES RECEIVES STATESMANSHIP AWARD IN N. Y.

Copyright, 1946, by Acme Newspictures, Inc.

BEATING THE DEADLINE—These parcels flowed into the New York post office when senders tried to beat the temporary postal regulation that packages must not weigh more than 5 pounds nor be more than 60 inches total around the length and width. These are much more than that.

CRY OF JOY—Colette Bouvet Thienot, 20, pretty French girl, burst into tears when she was reunited with her year-old daughter in Los Angeles. The young daughter had been adopted by an American family.

TOP COOKS—These five ladies were chosen the best cooks at Chicago's 4-11 25th anniversary congress. Showing samples of their art are left to right, LaVerne M. Priebe, Doris Anders, Mary Wengryn, and Phyllis Matteuci.

MINOR BENEFIT—When the coal strike reduced shipments to the point where this receiving dock at an automobile factory in Detroit is almost empty, workers were able to take advantage of the situation to replace fluorescent lamps.

MOTHER'S FAVORITE—Mrs. Nellie Maloney, head of the New York chapter of the American Mothers Group, presents for the organization a citation to comedian Milton Berle, naming him as one who had done most to glorify the American mother in 1946.

WILSON WYATT RESIGNS—Housing Expediter Wilson Wyatt who resigned his Washington job cleans out his desk to make room for his successor. Wyatt quit his post when his and President Truman's ideas on veterans' housing did not agree.

NICE WORK—Wearing abbreviated slacks for their appearance in a New York show, these young actresses receive final measurements from their costume designer, Walter Florell. The slacks may be worn for various informal occasions.

SECRETARY BYRNES HONORED—In recognition of his statesmanship, Secretary of State Byrnes was awarded the Certificate of Meritorious Achievement by the Audubon Artists in New York. Here artist Grace Annette Du Pre presents Byrnes' portrait to Mrs. Byrnes while Helen Hayes watches.

CORN KING—Newton L. Halterman of Rushville, Ind., admits his trophy which he received when crowned "Corn King of North America," at the International grain and hay show in Chicago. Shown here are some of the prize winning cobs.

HER FUEL PROBLEM SOLVED—When Mrs. Marie M. Depauw of South Bend, Ind., ran out of coal and was unable to buy more, a local grain elevator presented her with this load of corn cobs. Here she busily carries the coal substitute to the basement for future use. Throughout the country users of coal were forced to look for substitutes because of the coal scarcity caused by the recent miners' strike.

ON PARADE—Some of the more than 50,000 spectators who visited the International Live Stock exposition in Chicago watch the judging of these prize cattle in ring of Stock Yards amphitheatre. Crowd broke all previous records of attendance.

For Next Few Years Increased University Expenditures Seen

Substantial increases in the current and capital expenditures of the University of Alberta are predicted for the next few years in a statement issued Friday by Dr. Robert Newton, president of the university, at the close of the quarterly meeting of the board of governors held Wednesday.

HE SAID the university was now budgeting for what may be the largest year in its history for some little time. Increased revenues and the necessity of moving forward the building program to meet the requirements of the large classes now moving forward through the university are factors in the proposed increased expenditures.

A submission from the Calgary committee on the development of a university branch there urged that the university approve seven more instructors for the 1947-48 session, to make possible a full two-year program of teacher-training in the city. This complete course cannot be given without the support of several teachers in arts and science subjects. In view of the heavy investment made this year in building and equipping halls on the university campus at Edmonton, the board of governors, while entirely sympathetic with the request would require further careful study before further commitments at the present time were made.

H. B. MAYO, now pursuing graduate study in economics and political science in Oxford, England, was appointed assistant professor of economics in the university campus at Edmonton, the board of governors, while entirely sympathetic with the request would require further careful study before further commitments at the present time were made.

H. B. MAYO, now pursuing graduate study in economics and political science in Oxford, England, was appointed assistant professor of economics in the university campus at Edmonton, the board of governors, while entirely sympathetic with the request would require further careful study before further commitments at the present time were made.

Delegates Greeted by Government, City Officials

Civil Servants Open Annual Meeting

Welcomed by officials of their organization, the province of Alberta and the city of Edmonton, approximately 100 delegates met in the Macdonald hotel Friday morning to initiate proceedings of the two-day 26th annual convention of the Civil Service Association of Alberta. William McGruther, president, was chairman.

W. R. E. ANSLY, minister of education in the provincial government, represented Premier Ernest Manning, who was unable to attend. "There exists between your organization and the government, the first relations possible," he said. "This is a good atmosphere to have, one that will ensure the pursuing of interests common to both. I want you to consider the minds freely and fully, and make suggestions of a clearing house of concrete ideas for the good of all."

"The government will give sympathetic hearing to any and all of your suggestions and resolutions. I wish you good luck in your convention," he concluded.

MAYOR HARRY ANSLY welcomed the delegates, with special reference to delegates from outside the city, Calgary, Medicine Hat, Ponoka, Fort Saskatchewan, Red Deer, Lethbridge, Claresholm, Grande Prairie and others. "Only wish you is that your convention may be both pleasant and profitable," he said, "in the resolving of problems common to both provincial and city employees. The status of your organization is the high plane it deserves."

Percy J. Grayne brought greetings from the Canadian Legion, and Fred Mitchell from the Civic Employees Association.

"THE YEAR HAS BEEN ONE OF BANK CLOSINGS THROUGH THE EDMONTON CLOSING HOUSE, for the week ended Dec. 12 amounted to \$1,548,317.13 compared to \$1,130,306.16 for the corresponding period of last year."

PRESIDENT: William McGruther, president of the Civil Service Association of Alberta, who is presiding over sessions of the annual convention now under way at the Macdonald hotel.

Attending members of the special areas advisory board and the Eastern Alberta Association in the Hanna district, four provincial cabinet ministers are due back in Edmonton this week.

They are Hon. Dr. W. C. Brown, minister of lands and mines; Hon. C. E. Gerhart, minister of trade and industry and municipal affairs; and Hon. D. B. MacMillan, minister of agriculture.

CONSTITUENCIES OF Dr. Brown and Mr. Gerhart contain districts designated as special areas.

Administration of the areas comes under the direction of Mr. Tanner, Mr. MacMillan and Mr. Brown.

The sting of the Mexican drought scorpion is often fatal to children.

Permits Soar to \$14,500,000

City Building Record Of 26 Years Broken

A record that has stood for 26 years was smashed Friday when Housing Enterprises, Ltd., took out a master permit for \$12,000 to swell the 1946 building permit total to more than \$14,500,000 and eclipse the 1912 total of \$14,438,310 by a substantial margin.

THE \$12,000 PERMIT covers the erection of 22 frame and stucco suites being erected on the peninsula site by A. V. Carlson Ltd. for the company. The architect for the project is F. H. Macdonald. The suites are being erected in groups of one, two and three.

Rapid progress is being made in the construction of these suites, and it is probable that many of them will be ready for occupancy early next spring.

To date this year a total of 1760 permits have been issued for the erection of homes in the city and the permit value of these structures is \$1,130,306.16, compared with \$1,080,943 for 1431 residential permits in the same period last year.

A PERMIT was issued to C. M. Dean for \$30,000 covering a frame and stucco drug store at 410 Jasper avenue and to George Neumann for \$3,000 covering a store building at 902 91 street.

Two land sales were made Thursday at the city land department, one to W. C. Moraw, 10250 Ward street, who purchased the west of the sixth and all of the seventh and eighth blocks on the east side of 124 street for \$7,150 at the site of a \$25,000 apartment block.

W. E. AND E. T. Iloson, 814 104 street, purchased the southeast corner of the intersection of 104 street for \$700. They will erect a \$6,000 service station on this property.

C.G.T. MEETS. Members of the St. Douglas church C.G.T. held their December supper meeting last week, with 48 members present. The girls bonced four new members from Riverbank United church.

K.C. Alberts, attorney-general, who referred them to seek legal advice, with the federal government.

Earlier this week, the executive met with Lucien Maynard.
